

GRATTON
School District

COVID-19 School Reopening 6/30/20:

Dear Gratton Families,

We are looking forward to a traditional physical return to school on August 6th with students attending school five days a week. We are working with the Stanislaus County Office of Education and Public Health to implement reasonable protocols to ensure the safety of our students, staff and community. The Stanislaus County Office of Education has published a guide for opening schools. You can access the guide as well as a variety of resources for families related to COVID-19 here <https://www.stancoe.org/coronavirus>. Please keep in mind that the document was published on June 5, 2020 and virus protocols change rapidly. In addition, we will assess the feasibility of individual guidelines and how they apply to our unique situation at Gratton. We will continue to follow the most up-to-date protocols while remaining mindful of the importance of exercising flexibility, understanding and compassion when working with children. There will also be an independent study option available for those students who are unable to physically return. We will update you with new information as it becomes available. We look forward to welcoming our students back to school in August!

Take care and be well,

Wendy Williams

Principal/Superintendent
