

Daily COVID-19 Student Health Screening

This screening must be done every day before bringing your child/ren to school

1. Does the student have a fever (temperature over 100.4 F or 38 C) **without** having taken any fever-reducing medications?
2. Does the student have a new loss of taste or smell?
3. Does the student have a cough?
4. Does the student have muscle or body aches?
5. Does the student have a sore throat?
6. Does the student have congestion or a runny nose?
7. Does the student have shortness of breath or difficulty breathing?
8. Does the student have chills?
9. Does the student have a headache?
10. Is the student experiencing fatigue?
11. Has the student experienced any new gastrointestinal symptoms such as nausea, vomiting, diarrhea, or loss of appetite in the last few days?
12. Has the student, or anyone she/he has been in close contact with, been diagnosed with COVID-19 or placed in quarantine for possible exposure to COVID-19 within the last two weeks?
13. Has the student been asked to self-isolate or quarantine by a medical professional or a local public health official in the last two weeks?

If your child answered yes to any of these questions or you have knowledge that any of these symptoms have been present in the last 48 hours, DO NOT bring your child to school and contact your child's physician immediately for medical advice.
